Job Summary

Under the supervision and direction of the Airport Manager/Operations Supervisor, this is a full-time position with Dickinson Municipal Airport Authority, maintaining all aspects of Theodore Roosevelt Regional Airport. Position demands a high level of professionalism and involves multiple duties including, but not limited to, facilities and airfield maintenance, organizing, inventorying, airport supplies, interacting with airport stakeholders, tenants, and cooperative agencies, responding to medical emergencies as an Aircraft Rescue Fire Fighter (ARFF), participating in department educational and training programs.

Supervision

Received: Operations & Maintenance Supervisor

Given: -NONE-

Essential Duties

This position has four categories of responsibility which include, Airport Operations, Safety, and Aircraft Rescue Firefighter (ARFF,) and General Security of the airfield. The essential functions are organized by the category and not in the order of importance. This position is also subject to airport on-call duties when required.

Airport Operations Specialist

Responsibilities for airfield operations and maintenance at Theodore Roosevelt Regional Airport include, but are not limited to the following:

- Maintains personal knowledge of current local, state and federal regulations concerning airfield operations, airfield equipment requirements, and other airport regulations, which govern the operation of the Airport.
- Coordinates with the Airport Manager/Airport Operations Supervisor to ensure that the department is in compliance with all applicable County, State and Federal regulations and completes required inspections and activities to assure compliance.
- Coordinates airport conditions and operations with Flight Service System (FSS), property owners, entities and departments as is necessary.
- Requests supply and material purchases for the airfield.
- Reviews and stays current with various safety and security manuals, as required by the Federal Aviation Administration (FAA) and under the direction of the Airport Manager.
- Prepares inspection reports and summaries as required by the, FAA, Department of Homeland Security and the Transportation Security Administration (DHS-TSA) under direction of the Airport Manager.
- Maintains the airport to ensure compliance with FAA, North Dakota Aeronautics Commission, and County and City regulations for commercial and general aviation.
- Issues (Notice to Airmen) (NOTAM's) through NOTAM Manager, or FSS, Grand Forks on airfield conditions and/or operations.

- Provides staff support for Airport Manager.
- Performs other duties as required.

The Airport Operations Specialist is responsible for a variety of semi-skilled and skilled duties required in maintaining Theodore Roosevelt Regional Airport. Duties include, but are not limited to, the following:

- Performs general maintenance on the terminal building and other related buildings.
- Maintains and repairs automatic doors, gates and fencing.
- Completes Daily, Weekly, Monthly and Quarterly inspections of airfield, and equipment.
- Maintains Precision Approach Path Indicator (PAPI) and Runway End Identifier Light (REIL) systems. Changes bulbs and electronic components as required. Trouble shoots to determine any operational problems and implements appropriate solutions.
- Maintains obstruction lighting, airfield runway and taxiway lighting, windsocks and rotating beacon for proper operation.
- Operates a variety of equipment including trucks, pay loaders, mowers, tractors, snow removal equipment, etc. as required to maintain airfield and airport grounds.
- Performs other related maintenance as required.

Safety and Security

Responsible for performing necessary airport inspections, providing fire rescue service and airport security as required by federal and state regulations and adopted by Dickinson Municipal Airport Authority policies and plans.

Duties include, but are not limited to, the following:

- Performs inspection duties of the grounds, terminal building, lighting system, and signage of airport.
- Responds to airport emergencies when required.
- Keeps airport systems free and clear of obstructions per FAA regulations.
- Performs daily/weekly airport inspections in accordance with FAA regulations.
- Provides airport rescue services (ARFF) as required by FAA part 139.319.
- Engages in fire rescue services (ARFF) as emergency situations dictate. Fire rescue services may include, but is not limited to: rescue and firefighting personnel safety; emergency communications; use of: fire hoses, nozzles, turrets, pumps, hydrants, extinguishers, ladders, hand tools, extrications tools, firefighting equipment, extinguishing agents; the use and wearing of breathing apparatus, emergency aircraft evacuation assistance; and firefighting operations.
- Daily oversight of security provisions at the airfield.
- Provides assistance to ensure that airport tenants or employees regulated under Parts 1544 and 1546 who have un-escorted access to un-secured areas do not enter restricted areas when applicable for security purposes, as outlined in the ASP.
